9. Er.Tushar Joshi also suggested that " Digital Career Planning" is the keyword for budding software engineers. He urged the students to participate in Facebook ,User groups related to JAVA, Oracle etc . He said that frequent users of such groups get noticed and many a times they get employment through them. Further he also suggested training on Advanced Embedded System for the students.
10. Er.Tushar Joshi also encouraged the students to post their technical related queries on stackoverflow.com, quora.com, stackexchange.com and meetup.com sites.
11. Prof.A.N.Jaiswal suggested that as per student's interest area technical groups should be formed and practical training should be imparted to students. He also pointed that number of massive training programmes are available on the internet which are free of cost.
12. Er Joshi said that management related certification courses are also available. Some of the courses require few contact hours which are available in Nagpur. Some courses are conducted through webinar.
13. Ms.Rutuja Shobhane wanted to know " How to launch your created application on google play store". Mr.Tushar Joshi responded to the question tactfully.
14. Mr. K.Palkandwar, Accounts Officer was asked to submit the Breakup about expenditure on purchase of equipment, maintenance, R & D etc.
15. Er.Tushar Joshi said that the Principal may suggest one faculty nominee who will look after the work related to Digital Career Planning and who can interact with Mr Joshi for any guidance or interaction.
16. Principal also advised to conduct at least STTP or FDP at department level in a academic year.
17. Internal marks distribution parameters finalized for students were approved in the meeting.
18. Format of feedback from Alumni & Faculties was shown to the committee and approved the same.
19. Er Tushar Joshi told to start entrepreneurship cell to guide the students in motivating for starting their own industry.
20. Dr M B Daigavane suggested AMCAT examination for the students which is useful in the recruitment purpose.
21. Finally discussion ended with AQAR report uploaded last year for the institute.
22. National Level conference required to be started, advised by Dr K K Dhote.
23. Courses like PLC SCADA , Embedded System may benefit to skill enhancement of students suggested by Ms Sandhya Pandey.
24. Ms Sandhya Pandey suggested to start rigorous training on skill enhancement in coordination with skill set required by industries.
25. Good quality TED Talk video may be shown in the library / Tutorial hour suggested by Dr S P Hingway.

The Meeting ended with a cup of Tea & Snacks.
